[standard hangers](#)

Hangers, whether clear nylon or stainless steel cable, have ends which are inserted from the ends of the rail. They then slide along to the required position.

Prices are 'per hanger'. Hangers can be made virtually any length - prices on request.

Stainless steel

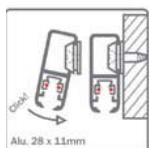

Nylon

Stainless Steel Cable

- ▶ See how easy it is to [install the Clip Rail 2 Hang & Light system](#) (PDF)
- ▶ The cliprail to hang&light top rail is aluminium and is made in 2m & 3m lengths.
- ▶ Standard finishes are gloss white and satin anodised aluminium.
- ▶ Brass bushes, fixing screws and masonry plugs are supplied for the Top Rail at the rate of nine per 3m length. Extra fixing packs can be ordered.
- ▶ The endcaps are colour matched, in white or in silver.

This **Cliprail 2 Hang & Light** is a revolutionary hanging and lighting system designed in Europe by Stas and distributed in Australia by FX Hanging Systems. It incorporates the versatility of other FX hanging systems with a lighting system in one discreet top rail. Solve your hanging and lighting issues in one go.

The subtle lights are adjustable in height and are available in two lengths, 50 cm and 70 cm.

Assembly is simple: fix the brass bushes on the wall, place the rail over the mounting bushes and click it firmly into place. With a simple straight connector or corner connector, one transformer can supply up to 16 metres of top rail. The 20 watt lights have a beam filter which diffuses the light on to your artworks and the surrounding wall. The supplied transformer has an electric plug which can be assembled via a click system in just a few seconds.
