Code	Finish	length m	\$
LOS2	Silver	2.0	\$25.40
LOS3	Silver	3.0	\$38.10
LOW2	White	2.0	\$25.40
LOW3	White	3.0	\$38.10

[standard hangers](#)

Hangers, whether clear nylon or stainless steel cable, have ends which are inserted from the ends of the rail. They then slide along to the required position.

Prices are 'per hanger'. Hangers can be made virtually any length - prices on request.

[Stainless Steel Cable](#)

CODE	M	\$	Use hook
LS15	1.5m	\$6.90	HL, LSSSH
LS20	2.0m	\$7.90

HD	Heavy Duty Large knurled screw	\$4.60

technical

- The Locator top rail is aluminium and made in 2m and 3m lengths.
- Standard finishes are gloss white and satin anodised aluminium.
- Nylon bushes, fixing screws and masonry plugs are supplied for the Top Rail at the rate of nine per 3m length. Extra fixing packs can be ordered.
- The endcaps are colour matched, in white or in pale grey.

Manufactured in Australia

The **Locator system** is particularly suited for use in offices and domestic interiors.

When it is installed, the fixing screws are hidden from view. The rail snaps onto a horizontal row of nylon bushes which are screwed directly to the wall. This is particularly useful if the rail has to be fixed to a hollow partition because some of the bushes can be placed on the vertical studwork. Although they can be fixed anywhere on the horizontal line, they must support the whole length of the rail.

We supply connectors to line up two pieces of rail which are joined and endcaps to cover the exposed ends.

If you are using the rail as an architectural detail around a room, outside corners can be mitred while the inside corners are usually butt joined.

You can choose either the more economical clear nylon hangers or the state of the art stainless steel cable hangers. There is also a choice of hooks.
