

Picture Hanging Systems: Accessories

Professional Gallery Picture Hanging Systems - supplied and installed by Red Fig Services

accessories

traditional hangers

For those homes with existing wooden picture rails, our top rails are not needed. We supply a brass S-shaped hanger to hang directly from the picture rail, which is fitted with either stainless steel cable or mono-filament nylon

adjustable hooks

For the Stainless Steel Hangers there are three types of hook available. The *Self-Locking Hook HL* is the favourite purely because of its incredible ease of use. Adjusting the height of the painting is achieved simply by pushing the hook up the cable. Wherever you let it go, the hook will lock fast. The *Super Security Hook* provides the same ease of use, but with added strength for heavier artworks.

For Nylon Hangers the choice is between the *Heavy Duty Hook HD*, the *Mini Hook HM* or the new *Nylon Self-Locking Zipper Hook*.
